Carnegie Wave Energy

Carnegie's strategy is to make money for its shareholders by commercialising its CETO Wave Energy Technology. Carnegie is the global owner and technology developer of the CETO Wave Energy Technology intellectual property. Carnegie has a Joint Venture License Agreement with EDF Energies Nouvelles to jointly develop, own and operate CETO Wave Power Projects in the Northern Hemisphere and Reunion Island. Due to its 100% ownership of the CETO technology, Carnegie is able to commercialise the CETO technology through a flexible combination of Build Own Operate (BOO) projects, Joint Venture (JV) projects, Technology Licensing Agreements and Operations and Maintenance (O&M) contracts. Carnegie's executive team and directors have considerable international experience in technology commercialisation, renewable energy and offshore engineering, providing a strong platform for future growth.

Hyundai Motor Company Australia (SEA Platinum Member)

For almost 25 years, Hyundai has been a part of the Australian automotive landscape. Hyundai is the fifth largest automotive group in the world, the fastest growing automotive brand in Australia, and is widely acknowledged as a global leader in design, safety and quality. We pride ourselves on building cars which deliver affordable technology to all Australians. Hyundai is looking to the future too. Hyundai's global Blue Drive program includes hybrid technology, plug-in Electric Vehicles and Fuel Cell Electric Vehicles that emit only heat and water. Hyundai's automotive manufacturing process begins right here in Australia. The mining of resources including Australian iron ore and coking coal takes place in our own backyard. These raw materials are then exported directly to Hyundai Steel in South Korea for processing into the steel used in Hyundai's vehicle manufacturing. Of the total raw materials imported by Hyundai Steel, over 60% is expected to have come from here, making Australia Hyundai's biggest single supplier of raw materials. Our latest i-series products, such as the i20 compact hatch, the i30 small car and i45 sedan have been recognised by a number of Australia's motoring clubs, motoring publications and Standards Australia; winning awards for innovative design, best in class operating costs and fuel efficiency amongst other attributes.

Jackson McDonald Lawyers (SEA Platinum Member)

Jackson McDonald is a full service commercial law firm based in Perth, Western Australia. The firm has over 200 people including 30 partners. Jackson McDonald has a long history of providing legal services to companies doing business in the resource rich state of Western Australia and has an excellent reputation for the calibre of its legal practitioners and the quality of service. The firm is particularly well known for its expertise in construction, property, tax, insurance, intellectual property and commercial transactions. Jackson McDonald client base varies from multi national corporations to local corporations, universities and government agencies. What sets the firm apart from others is the attitude of partners and staff. Clients frequently comment on how accessible and easy to work with they find the partners and staff at Jackson McDonald. The quality of Jackson McDonald service was recognised with the award of the inaugural Perth Law Firm of the Year in 2007, an honour bestowed on the firm again in 2008 and 2009. Jackson McDonald is ideally placed to provide practical and commercially focussed advice to companies, of any size, looking to do business in Western Australia.

Mitsubishi Motors Australia Ltd

Mitsubishi Motors Australia is part of the global Mitsubishi Motors organisation and is fully owned by Mitsubishi, one of the world's largest companies. Our history dates back to 1870, when our Japanese founder, Yataro Iwasaki, started a shipping company with three steamships. The company grew from strength to strength, and in 1914, registered the Mitsubishi three-diamond trademark. This symbol embodies over 130 years of tradition, and has earned the confidence and trust of customers all over the world. Mitsubishi Motors Australia take great pride from knowing that over 11 million people around the world have chosen to drive our vehicles. It's what inspires us to go the extra mile and develop new technology and ground-breaking safety systems that challenge convention.

The University of Western Australia

Since 1911 The University of Western Australia has shaped the careers of more than 100,000 graduates and it continues to attract WA's brightest and best students. UWA aims to be recognised internationally for its teaching and research excellence and as a leading intellectual and creative resource to the communities it serves. Sustainability and discovering alternative energy sources to power the future are just some of the challenging issues on UWA's research and teaching agenda. The Energy and Minerals Institute at UWA brings together world class research across one campus for the benefit of the key industries driving the State's economy. The Institute has positioned itself as industry's foremost, trusted and independent research partner to get the best out of mining in our resource rich State.

UNLTD Energy (SEA Platinum Member)

UNLTD Energy Group is a wholly WA-owned, operated and ISO 9001/2008 quality endorsed company. UNLTD Solar is a division of UNLTD Energy that operates across the areas of solar power, wind power, technology, and sustainability consulting. Each member of the UNLTD Energy senior management team carries an average of 20 years business experience with background qualifications including Masters of Business Administration, Masters of Science in Renewable Energy and Masters of Electrical Engineering. Over the past 3 years UNLTD Energy have evolved in the fastest growing industry in the world, completing WA's largest commercial installation at Murdoch University with 26kW in 2008, and we have recently secured commitments against the largest projects to date in WA for 110kW and 700kW in the government and commercial sectors respectively. In March 2009, following a comprehensive industry review, Synergy chose UNLTD Solar as its exclusive partner to promote, design and install solar energy systems to Synergy's customers. Our installed generation capacity in 2010 is on target to exceed 5 Megawatts, representing the single largest contribution towards solar energy in Western Australia. The environmental benefits from this achievement are obvious, the more solar powered systems installed in WA, the lower the impact on our environment and the lesser our dependence on fossil fuels. Our goal is to proliferate affordable renewable energy and energy management solutions to all Western Australians so that renewable energy and sustainability become mainstream rather than 'alternative'.
