

**CORPORATE MEMBERS****Hyundai Motor Company Australia (SEA Platinum Member)**

For almost 25 years, Hyundai has been a part of the Australian automotive landscape. Hyundai is the fourth largest automotive group in the world, the fastest growing automotive brand in Australia, and is widely acknowledged as a global leader in design, safety and quality. We pride ourselves on building cars which deliver affordable technology to all Australians. Hyundai is looking to the future too. Hyundai's global Blue Drive program includes hybrid technology, plug-in Electric Vehicles and Fuel Cell Electric Vehicles that emit only heat and water. Hyundai's automotive manufacturing process begins right here in Australia. The mining of resources including Australian iron ore and coking coal takes place in our own backyard. These raw materials are then exported directly to Hyundai Steel in South Korea for processing into the steel used in Hyundai's vehicle manufacturing. Of the total raw materials imported by Hyundai Steel, over 60% is expected to have come from here, making Australia Hyundai's biggest single supplier of raw materials. Our latest i-series products, such as the i20 compact hatch, the i30 small car and i45 sedan have been recognised by a number of Australia's motoring clubs, motoring publications and Standards Australia; winning awards for innovative design, best in class operating costs and fuel efficiency amongst other attributes.

**Jackson McDonald Lawyers (SEA Platinum Member)**

Jackson McDonald is a full service commercial law firm based in Perth, Western Australia. The firm has over 200 people including 30 partners. Jackson McDonald has a long history of providing legal services to companies doing business in the resource rich state of Western Australia and has an excellent reputation for the calibre of its legal practitioners and the quality of service. The firm is particularly well known for its expertise in construction, property, tax, insurance, intellectual property and commercial transactions. Jackson McDonald client base varies from multi national corporations to local corporations, universities and government agencies. What sets the firm apart from others is the attitude of partners and staff. Clients frequently comment on how accessible and easy to work with they find the partners and staff at Jackson McDonald. The quality of Jackson McDonald service was recognised with the award of the inaugural Perth Law Firm of the Year in 2007, an honour bestowed on the firm again in 2008 and 2009. Jackson McDonald is ideally placed to provide practical and commercially focussed advice to companies, of any size, looking to do business in Western Australia.

**All-Energy Events Pty Ltd**

All-Energy Events Pty Ltd is the organiser of Australia's most significant international clean energy event – the All-Energy Australia Exhibition & Conference. All-Energy Australia is a free-to-delegate, business-to-business exhibition, conference and networking forum showcasing renewable energy, clean energy, sustainable transport and energy efficiency. It targets no single solution, but embraces all opportunities within the clean energy market. All-Energy Australia 2011 attracted over 3,600 participants from 24 countries, 230 exhibitors representing 13 countries and featured 100 plus leading speakers in the multi stream conference. All-Energy Australia is proudly supported by the State Government of Victoria and is being held at the Melbourne Convention & Exhibition Centre from 10th to 11th October 2012.

**Energy Matters**

Energy Matters is an award winning business and one of Australia's largest companies solely dedicated to renewable energy.

Founded in 2005, Energy Matters has installed over 8,000 solar systems on homes, schools and commercial buildings, including Australia's largest privately funded solar photovoltaic project – a 200kW rooftop array in Sydney. Energy Matters is 100% Australian owned and sources only products which have been tested to suit Australia's harsh conditions. With expertise in both grid connect and stand alone power, Energy Matters is able to provide flexible clean energy solutions to fit almost all needs.

Energy Matters is proud of its commitment to ongoing innovation and product development. Its SunLock solar mounting system, designed and manufactured locally, has been used to mount over 75MW of solar panels to roofs across the nation.

It's wholesale distribution arm, Apollo Energy, is a trusted supplier of renewable energy components throughout Australia and the Asia Pacific.

Phone: 1300 727 151

Web: [www.energymatters.com.au](http://www.energymatters.com.au)

**Ergon Energy**

Ergon Energy, as a Queensland Government Owned Corporation, operates as an electricity distributor, retailer and generator and services around 680,000 customers across its vast operating area of over one million square kilometres – 97% of the state of Queensland. Its electricity network consists of approximately 150,000 kilometres of powerlines and one million power poles, along with associated infrastructure such as major substations and power transformers. It also owns and operates 33 stand-alone power stations that provide supply to isolated communities across Queensland which are not connected to the main electricity grid. Since August 2007, Ergon Energy has owned and operated the Barcardine gas-fired power station along with its associated infrastructure. The power station supplies power to the main grid. Ergon Energy is a major contributor to the development of skills across regional Queensland. It is one of Australia's largest purchasers of renewable energy and is actively involved in alternative energy generation solutions.

**Fronius Australia**

Fronius Australia has established its Solar Electronics subsidiary supplying PV inverters from 1.5 - 60kW systems as well as a fully equipped repair service centre. Fronius has recently launched the IG Plus V series available in the following power categories: 3.5 kW, 4 kW, 6.5 kW, 8 kW, 10 kW and 12 kW. The Fronius IG TL 4.6 is a 4.6kW transformerless device with integrated system monitoring. All Fronius inverters are accredited in Australia. A wide variety of applications, maximum yield dependability and the highest level of reliability make these devices best in their class. Fronius Australia will look to grow their team of authorised Fronius Service Partners with the regular Fronius PV Seminars. These seminars will also suit solar sales professionals, planners and system installers. More information on the website.

**Horizon Power**

Horizon Power is the pre-eminent supplier of energy solutions to regional and remote Western Australia. Its service area is vast, approximately 2.3 million square kilometres. Horizon Power services the biggest area with the least amount of customers in the world - for every 575 square kilometres of terrain, it has one customer. Horizon's customers range from people living in remote, isolated communities with less than 100 people, to residents and small businesses in busy regional towns, to major mining companies in the resource-rich Pilbara region.

PO Box 1066, BENTLEY DC WA 6983

Phone: 08 6310 1000

Web: [www.horizonpower.com.au](http://www.horizonpower.com.au)

**Hyperion Energy**

Hyperion Energy proposes by utilizing the latest solar thermal/convection technology to supply much needed true renewable green energy to the resource rich, utility poor Mid West region of Western Australia. The company plans to be a preferred supplier of competitive renewable energy to both household and industry in Western Australia. The power generation platform, to be constructed in 200MW stages when completed, will produce 1000 MW electricity and the created hub will become the 'Mid West Interconnected System' (MWIS). It will ultimately allow for the continuous uninterrupted connection of power transmission between the North West Interconnected System (NWIS) and the South West Interconnected System (SWIS). The selected region has one of the highest sustained solar exposure ratings in the world. The concept allows for the continuous generation of power using a combination of the very latest updates in solar/thermal engineering and design.

### Infinite Energy

*Infinite Energy is WA's leading provider of premium Solar PV solutions for both residential and commercial customers. Infinite Energy focuses on high end quality systems backed up by superior after sales service and performance monitoring. We see Solar Energy Systems as financial investments and provide clients with detailed financial projections (NPV, IRRs) as well as the technical specification of the system itself. In line with this long term investment approach we utilise superior components from top manufacturers like SMA, Q-Cells, Suntech and Kyocera.*

### Perth Energy

*Perth Energy is an energy supplier in Western Australia with a reputation for innovation and customer service. It has been at the forefront of industry reform to bring competition, choice and value to energy users. As an energy retailer, Perth Energy ensures that customers' supply requirements are met at the best possible price, with least disruption, and in the most environmentally friendly and efficient manner. In August 2010 Perth Energy commissioned its own dual fuel, fast response generation plant at Kwinana to support intermittent renewable energy projects and enhance system reliability. Perth Energy's detailed knowledge of the WA market and hands-on experience in the energy supply industry has enabled it to provide a high quality customer management service, assisting customers at the strategic and operational levels.*

### SDS Sustainable Drive Systems (Australia)

*Sustainable Drive Systems is an Australian based company, headquartered in Western Australia, delivering innovative power saving solutions that harness energy already in motion. This unique power saving technology will make a significant contribution to help Australia secure a reliable, zero emissions and secure renewable energy supply to meet our 2020 energy targets earlier. SDS takes a pragmatic approach to the creation of patented drive system technologies for the rail and road industries. The team at SDS are driven to develop future generations of innovative energy harnessing technologies.*

144 Northwood Street, WEST LEEDERVILLE WA 6007

Phone: 08 9593 7843

### SMA Australia

*SMA Solar Technology AG is the world's largest manufacturer of photovoltaic inverters with a 30-year history in systems technology. The German designed and manufactured product range provides a one-stop-shop for photovoltaic solutions, matching inverter types with any installation size, module type or power class. Consistently producing high quality, reliable and efficient inverters, the product range includes grid-tied and central inverters and well as backup and off-grid systems. This is also complimented by communication devices for wireless monitoring of yield and CO2 savings.*

Web: [www.sunwiseelectrics.com.au](http://www.sunwiseelectrics.com.au)

### Swan Energy Pty Ltd

As the demand for renewable energy increase, so is the need for experienced leaders in the field of commercial solar energy systems. Swan Energy based in Western Australia has been operating in the commercial renewable energy field for the last five years and installed over 200 commercial Solar and Wind power systems in WA.

Swan Energy is backed by two world- leading multi-national partners, LG and the POSCO Group, a 1st in Australia.

As a primary contractor to the Federal and WA State Government's Solar Schools Program and preferred supplier for the WA Local Government Association (WALGA), Swan Energy is the leading provider of renewable energy solutions for the WA Government sector.

After commissioning some landmark installations such as WA largest commercial roof top installation at Polytechnic West and Australia's largest real-time dual axis tracking system at the Galaxy Mining site, we strongly focus on the Government Sector and large scale commercial clean energy power stations in WA.

Swan Energy operates as a total service provider from concept to finance, installation, operations and maintenance of commercial solar power systems.

As an industry leader, Swan Energy will keep focussing on our growing demand for energy by creating safe, reliable, high quality renewable energy systems that will have long term benefits for current and future generations.

179a Star St, CARLISLE WA 6101

Phone: 1300 927 926

### Synergy

Synergy is Western Australia's largest energy retailer with approximately 980,000 industrial, commercial and residential customers connected to the South West Interconnected System (SWIS) covering the area from Kalbarri in the north down to Albany in the south and east to Kalgoorlie. Synergy are energy experts. Its expertise ensures energy generators and network suppliers understand the needs of Western Australia's homes and businesses and strive to deliver a consistent, quality energy supply. As an energy retailer, it's continuously searching for its own innovations to deliver better energy services and value to our customers

### Wesfarmers Limited

Wesfarmers Limited is one of Australia's largest public companies with operations in the retail, resources, insurance, energy, industrial and safety and chemicals and fertilisers fields. The company has significant businesses in Australia and New Zealand and is both a large user and producer of energy with significant energy efficiency programs in place. Since opening our LNG production plant and distribution network in 2008, we have expanded LNG availability in Western Australia as an alternative fuel for the heavy-duty vehicle, industrial gas and remote power generation markets. More information is contained in our 2011 Annual and Sustainability reports available on our website.

11th Floor, Wesfarmers House, 40 The Esplanade, PERTH WA 6000

### UNLTD Energy

UNLTD Energy Group is a wholly WA-owned, operated and ISO 9001/2008 quality endorsed company. UNLTD Solar is a division of UNLTD Energy that operates across the areas of solar power, wind power, technology, and sustainability consulting. Each member of the UNLTD Energy senior management team carries an average of 20 years business experience with background qualifications including Masters of Business Administration, Masters of Science in Renewable Energy and Masters of E-Commerce. Over the past 3 years UNLTD Energy has evolved in the fastest growing industry in the world, completing WA's largest commercial installation at Murdoch University with 26kW in 2008, multiple Council buildings, private schools and we have recently secured commitments against the largest projects to date in WA for 110kW and 700kW in the government and commercial sectors respectively. In March 2009, following a comprehensive industry review, Synergy chose UNLTD Solar as its exclusive partner to promote, design and install solar energy systems to Synergy's customers. UNLTD has installed 1,000s of systems, the environmental benefits from this achievement are obvious, the more solar powered systems installed in WA, the lower the impact on our environment and the lesser our dependence on fossil fuels. Its goal is to proliferate affordable renewable energy and energy management solutions to all Western Australians so that renewable energy and sustainability become mainstream rather than 'alternative'.

### Western Power

Western Power connects people with energy. It operates the electricity network in the south west of Western Australia, delivering power to more than 1.5 million people every day. It does this by working closely with electricity generators to ensure a variety of traditional and renewable energy sources can be connected to our network. Western Power also provides information to energy retailers, who bill customers for electricity use. Its commitment is to connect customers with the energy they need at home and in the workplace – meeting their requirements today and securing a safe, reliable and sustainable energy supply for the future.
