

SEA

**SUSTAINABLE ENERGY
ASSOCIATION OF AUSTRALIA**

SEA is a chamber of enterprises providing the commercial solution to climate change through their products and services, or that aspire to be more sustainable in their own energy use, inclusive of businesses offering or using services and products that manage or offset greenhouse gas emissions in transition to sustainable energy use.

SEA now has more than 385 industry members from most industry sectors and SEA is now one of the largest energy chambers in Australia. Members come from a diversity of companies, businesses, and organisations involved in sustainable energy practices and including energy efficiency across government, business and the community in: infrastructure; architecture and design of; transport; performance of appliances, vehicles, machinery, and industrial processes; use of renewable energy generation including passive use and solar and hydrothermal hot water.

The role of governments is to build frameworks of governance that establish clear market signals for change and growth, and allow Australia's innovative businesses to respond and deliver market-based solutions. **A key role of SEA is to offer policy options** to governments building those frameworks.

Climate change will impact every part and every level of government, in all industrial sectors, in every part of the community. Getting the energy equation right is the key to responding to global warming, and with substantial changes coming in sustainable energy legislation, SEA will be working to ensure that past and future election promises actually become good policy and that legislative frameworks are created that allow business to get on with the work of creating solutions to climate change.

SEA is the only industry body nationally advocating substantive action on sustainable energy across all areas and sectors of Australia's economy. SEA has a strong reputation in Australia for authoritative commentary and advocacy on a broad range of energy efficiency and sustainable energy issues.

Enterprises serious about the development of a sustainable energy market can support advocacy for the best policy outcomes for Australia by supporting SEA. At a critical time for individuals, governments, businesses and the community to develop sustainable energy solutions to reduce greenhouse gas emissions and adapt to global warming, we invite you to consider membership.

The Energising South East Asia conference will consider how we should do business in the 21st Century, and outline a new era of prosperity and an economy based on sustainable outcomes for South East Asia and the world. With the assistance of Austrade and the WA Department of State Development, we expect Energising South East Asia will attract official delegations from most major South East Asian nations – as well as some global neighbours! Our target nations includes China, Japan, South Korea, Malaysia, Singapore, Indonesia and India, and with interest already expressed from 'global neighbours' in the USA, UK, UAE and Israel.

**SUSTAINABLE ENERGY
ASSOCIATION OF AUSTRALIA**

MEMBERSHIP APPLICATION

SEA is the peak body for all enterprises supporting sustainable energy and is the only industry body in Australia actively supporting substantive action on sustainable energy across all areas and sectors of Australia's economy.

SEA Members are enterprises with an interest in sustainable energy solutions to reduce emissions and adapt to global warming. SEA promotes the development and adoption of sustainable energy technologies and services that minimise the use of energy through sustainable energy practices and maximise the use of energy from sustainable sources.

All Members receive the following benefits:

- SEA Membership Certificate
- SEA voting rights
- SEA advocacy and lobbying on behalf of members on issues affecting the sustainable energy industry
- Regular email updates and special alerts on sustainable energy industry news and issues to nominated contacts
- Access to SEA sustainable energy industry policy forums and reference groups
- Ability to join the SEA Board
- Substantial discounts for all SEA organised events, seminars and workshops
- Subscription to the national *EcoGeneration* magazine included
- Exclusive invitations to member only networking events
- Regular free member only networking events
- Updates and invitations to other industry events

Enterprise level membership is SEA's standard membership category for all enterprises.

Enterprise Members receive additional privileges not available to individual category members:

- Acknowledgement as an Enterprise Member of SEA
- Authorisation to display SEA Member logo
- Opportunity to provide stories for and advertise in SEA's *Energising WA* magazine
- Listing in SEA Annual Directory of Enterprises and other SEA directories
- Listing in SEA's *Energising WA* and right to advertise.
- Listing in the annual national *EcoGeneration* Directory
- Right to sponsor or SEA events
- Exclusive invitations to business only networking events

And specific Enterprise Member benefits by category: School or Community Group (Community category only for groups without paid employees.)

- Discounts for up to two places per SEA function **Small Business/Enterprise (2 - 19 employees*)**
 - Discounts for up to two places per SEA function **Medium Business/Enterprise (20 - 99 employees*)**
 - Discounts for up to four places per SEA function **Large Business/Enterprise (100 or more employees*)**
 - Discounts for up to eight places per SEA function
- * *Employee FTE numbers are inclusive of all staff, contract and other workers associated with the enterprise as a whole.*

Corporate Members

Corporate Members elect to pay a higher membership fee, and so provide additional financial support that is vital in ensuring the SEA office is well resourced to support members, undertake activities and lobby governments to promote an economic and legislative environment that encourages the development and uptake of sustainable energy. With increasing recognition and support of SEA, Corporate Membership guarantees a high profile in support of advocacy for sustainable energy in WA.

Corporate Members receive in addition to all privileges above:

- Acknowledgement at all SEA events, on promotional material, and on website
- Exclusive invitations to SEA Corporate Member only events
- Early option on right to sponsor SEA events

And specific Corporate Member benefits by category: Bronze Corporate Members (only available to small enterprise members)

- One complimentary seat at all eligible SEA functions*
- Discounts for up to four places per SEA function
- Representation invited at Head Table at selected SEA events
